

Geomet Authorization Code

Before you can operate your Geomet CMM software, you must enter the authorization codes that are found on the attach sheet.

To enter the authorization codes, start GeoClean from the task bar:

Start -> Programs -> Geomet 101 -> GeoClean

Select from the menus: <Enter Authorization Code>

After you have selected <Enter Authorization Code>, you will be presented with the following screen.

Enter the required fields and accept. If you have entered the required codes, Geomet will now be ready for use.

If you have any questions, contact service@hommel.com or call (716) 297-8644
